- ▶ High-speed coin counter
- ▶ Efficient and accurate
- ▶ Reliable counting of incoming coins or tokens
- ▶ Guarantees high precision counting

Efficient and Reliable Counting

Do you need to count large quantities of coins at a fast rate and still ensure efficient and reliable counting? Then you should get the most robust high quality coin counter on the market. It is a high capacity coin counter with variety of smart functions that are appreciated by thousands of users worldwide.

SC 3003 Universal is considered to be one of the most robust and high quality coin counters on the market today.

A high-speed coin counter

The SC 3003 Universal coin counter has been especially developed to count large quantities at a fast rate, ensuring efficient and reliable counting of incoming coins or tokens. Its high capacity, up to 3,500 coins per minute, makes it a popular coin counter for banks and cash centres all over the world. The SC 3003 Universal features an auto-stop when the last coin has passed, and a non-volatile memory allows storage of the counted coins. The automatic off-sorting of smaller coins allows the separation of mixed denominations.

State-of-the-art reliability

Trust SC 3003 Universal to consistently deliver accurate results. The electronic inductive sensor guarantees high precision counting while making the SC 3003 Universal virtually unaffected by dirt and grime. This results in reduced wear and cleaning, as well as the prevention of annoying interruptions. The machine also features a built-in function for reversing jammed coins and restarting automatically.

User-friendly performance

The SC 3003 Universal has a wide range of smart functions and accessories to meet a wide variety of requirements. This, together with seven preprogrammed quantity stops and one continuous counting mode, makes the SC 3003 Universal a very efficient filling machine, whether applied to coin tubes or bags of different sizes. Changing between tubes and bags is easy using the accessories available. The denominations are easily selected by turning one handle and all actions and settings are clearly monitored at the operator panel. Efficient and ergonomic coin handling is achieved by using the SC 3003 Universal foot-control. All in all, the SC 3003 Universal is a superior performer with many user-friendly possibilities.

Technical Specification

Width	295 mm / 12"
