

# L10 Hospital Payment Kiosk

Sold by SCAN COIN

SCAN COIN's L10 hospital payment kiosk provides a secure, reliable and hassle free way to take payments 24/7.

The L10 is a self service payment kiosk for taking payments for prescriptions and other chargeable items in a number of different hospital departments, including A & E and Maternity, as well as health centres. Many emergency departments have no way to collect payments when the pharmacy is closed, this kiosk allows collection of vital revenue which would otherwise be lost or very difficult to collect.

### Simple operation

The L10 payment machine can be wall-mounted and is attractively styled to ensure high visibility. It incorporates a colour touch-screen display for maximum ease of use and flexibility of operation. The customer uses the simple touch menu system to select the appropriate transaction. It is designed to be simple to operate and yet fully functional. The layout of the menu and other options are configured to a customer's requirements.

### Flexible platform

The L10 accepts all types of payments and gives change with a payment receipt and voucher. With many types of connectivity options, it can be managed remotely or kept as a stand-alone unit. The L10's operating system offers a reliable platform that can be programmed to meet any future need. This kiosk offers considerable flexibility to meet different application demands.

### Features

- Takes payments by cash or card 24/7
- Accepts 5p 10p, 20p, 50p, £1 and £2 coins
